

This document describes a pre-staged OP that is now live. Public disclosure utilizes an allegory. This linked article on IARPA and its [Metaphor](#) program should suffice to explain why.

The first phase, dubbed [Eyes of the Lepus](#), must be understood before proceeding. Otherwise, you will not understand how the pope became poop and lost the devil's trident.

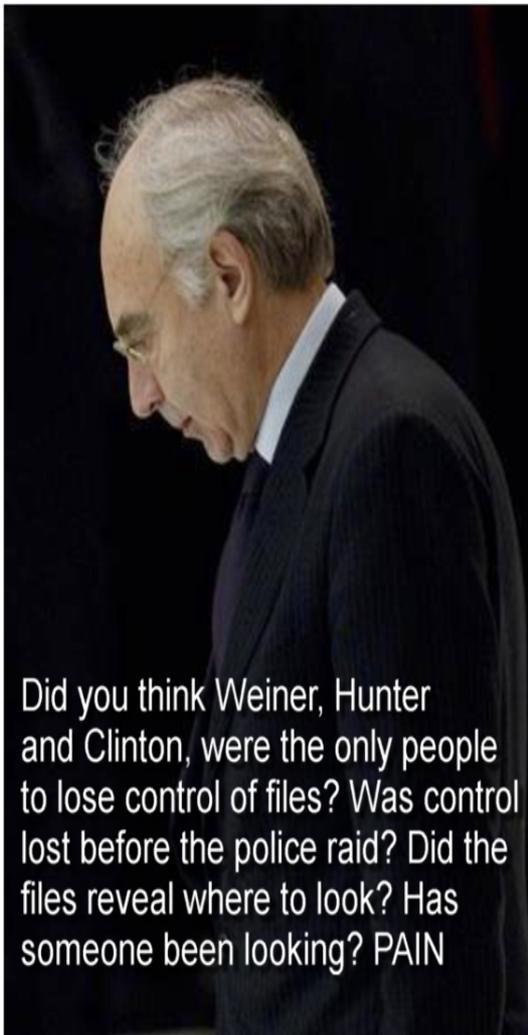

Oct. 31, 2020, 14:49Z, operation [Night of the Lepus](#) was launched. This second phase empowered [Stewy](#) to F.A.C.E. the [dark master](#) of the poop (the papist formerly known as pope).

Stewy is a weapon designed to **Fight Abuse Corruption & Evil**. The greatest source of such wickedness is the papacy, which traditional protestants have identified as [Antichrist](#) for over 500 years.

[The fall of Rome](#) is finally at hand (Rev. 17-18). The technology they hoped would enslave the masses under their globalist NWO, has become their undoing.

The [storm whispers](#) to the [riders](#), prepare for what lies ahead - it's going to be "biblical"!

Did you think Weiner, Hunter and Clinton, were the only people to lose control of files? Was control lost before the police raid? Did the files reveal where to look? Has someone been looking? PAIN

In this Dec. 21, 2011, file photo, Ettore Gotti Tedeschi, head of the Vatican bank I.O.R., leaves after greeting Pope Benedict XVI at the end of a weekly general audience at the Vatican. Gotti Tedeschi was ousted after a no-confidence vote of the Vatican bank I.O.R. governing body on Thursday, May 24, 2012.

Numerous financial scandals like [The Calvi Affair](#) have plagued the Vatican bank. Systemic abuse of children, and its cover-up, have also been [exposed](#) worldwide.

Still, the evil institution remains the "Holy Mother Church" of "Trad Cat" pipe dreams. They [protest the evils](#) of Rome more loudly than Protestants, yet refuse to flee Babylon (Rev. 18:4). Sadly, their authority is the papacy and tradition, not Christ and the bible. Their faith is subject to an institution built upon the wrong [foundation](#).

Remaining under Rome's spell is not wise. Devastating files have been weaponized and hang over the poop's head like the sword of Damocles.

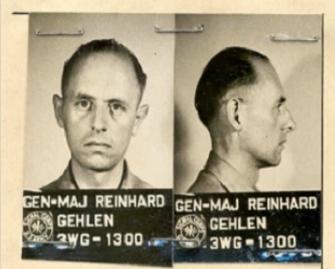

Files so horrific, so gut-wrenching, they will destroy the satanic institution itself, along with all who cling to it. [The Final Countdown](#) to the fall of Rome has begun. [Timing is Everything](#).

A Nazi with a BOLERO and a KEYSTONE gave the CIA a RUSTY ZIPPER because they P-2 much. The fight against evil is an UPHILL battle because the Church on Haunted Hill has lots of spooks.

No worries... They forgot about the fire... Prepared for the angels who had sinned...

A strange **event** recurs but only those with **knowledge** understand (Daniel 12:10). The cycle has grown in intensity, leading to a milestone in the long protracted battle between good and evil.

On the **Harvest Moon**, a dramatic power shift occurred. The Lepus deprived the Hound of Hell of its **family jewels** to make a pouch for the **Wizard**. Then as the Dark Raven filled the sky, the pope became poop just as **foretold**.

With the rising of the **Hunter's Moon**, Stewy emerged from underground to F.A.C.E. the dark master of the poop. Prowling by night, he hunts swamp creatures, driven by a hunger that will never die.

All who swear allegiance to the dark master of the poop will be left behind. They will suffer the fate of the wicked and be like **dung** upon the earth.

Thus, the ancient tale of the **Moon Rabbit** has *RELOADED*. With each full moon, the cycle repeats, and the Lepus grows stronger. It feeds on the darkness and spits out the bones.

Look deep into the eyes of the punisher. You find the **Reager** of judgment (Rev. 14:14-20).

His sickle follows the crescent moon, swinging one way, then the other. It will **cut down** the wicked and punish the Church on Haunted Hill for its many **crimes against humanity**.
