

The **PINK BUNNIES** is an organization that grew out of Military "geekdom" over 30 years ago. It is a response to Jesuit infiltration and corruption of governments and institutions.

It was formed by a Protestant Military Chaplain who was sickened by the corruption of Church and State by the Vatican. He admired the goals of the Orangemen in opposing Popery but was distressed that they had been reduced to controlled opposition,

permeated by Masonic influence and structure, politicized, infiltrated, corrupted.

Instead of a splinter group, he wanted something entirely different and carefully selected devout Protestant Christians from his Military contacts who he knew shared his convictions. Advances in surveillance technology were a primary concern when forming the operational structure and protocols. Insider knowledge foresaw the crisis the intelligence community now faces and planning was not in vain.

The PINK BUNNIES is unlike the Orangemen with its antiquated lodge system, masonic degrees, checkered past, and impotent future. Civil and religious liberty are championed, Protestant theology and Christian values are uplifted, but that is where the similarity ends. The organization is apolitical, aside from opposing corruption and wickedness in high places.

Unlike the Orange Order's blind allegiance to the crown, the British government (like most others) is seen as compromised (The Definitive Treaty of Peace of 1783 says that King George was the Arch Treasurer and Prince-Elector of the **Holy Roman Empire**). The British government and Anglican Church are alike seen

as corrupt, infiltrated, compromised, and no longer representative of Protestant values.

Another key difference is, whereas the Orangemen were patterned after the Masons, the craft is shunned by the PINK BUNNIES as Jesuit controlled and corrupted by Gnostic principles and Luciferian doctrine.

In contrast, the structure and methodology of the PINK BUNNIES were designed by “military geeks” with technical backgrounds. It is a strange animal indeed, undetectable and impervious to infiltration by design. Since it is not sanctioned and an enemy of government corruption, it has remained underground for decades, gathering data and resources for such a time as this.

In one sense, it can be viewed as an underground Church, technologically savvy, and separate from the whore of Babylon and her harlot daughters. In another sense, it operates somewhat like Military Intelligence, since it was formed with the help of some of its members and intertwines with it.

Loyalty to God and his principles is considered a higher calling than loyalty to King and country, especially where known corruption is present and unlawful (or immoral) orders are commonplace. It is not a separate Militia, or a threat to public peace and order, but definitely a threat to institutional corruption, whether it be found in Church or State. Exposure is the weapon of choice, in an information war with a corrupt system that employs deception and malevolent propaganda to effect control.

Functionally, it is a proactive 3 pronged attack against the evils of the Vatican. It can be visualized as a pitchfork. The 3 divisions function separately but are one in purpose, in some sense like the Trinity. The section titles form an acronym.

1. Protestant Intelligence Network
2. Knights Battling Underground Nightmare Nemesis
3. Infiltrating Enemy Strongholds

This page is public and part of a PIN outlet. It's simply an information page where people can learn about us and the evils of our nemesis, the Vatican. Public sources are used, nothing traces back to the group directly. The page owner is expendable and kept in the dark on operations, a **White Rabbit** role.

KBUNN section is staffed solely by full-fledged Knights who are Military and ex-Military. Its activities are not in the public domain but relate to exposing and combating evil within institutions.

The IES section is also not public. It centers on intelligence gathering and counterintelligence activities. Information appropriate for public consumption is fed to public media outlets, other information remains in-house.

Our enemies attempt to associate our symbols and memes with racism and false narratives to influence public perception against us. Ignore them, we believe the battle is between good and evil - not red and blue for politics, black and white for race, rich and poor for class, or any of the artificial divisions imposed upon humanity.

The war against evil crosses all lines, all creeds, all races, all classes, all institutions. Any form of racism, bigotry, or xenophobia is antithetical to our goals and values. We oppose the Vatican **NOT** on the grounds of religious bigotry but because they are at the center of a criminal cabal steeped in corruption, pedophilia, political manipulation, and religious deception.

The City of London (Corporation), Washington DC, and the Vatican are set-up as legally independent enclaves from the countries that contain them. Each is adorned with a conspicuous pagan obelisk as a testament to their occult connections. Many governments have concordats with the Vatican or are controlled by their secret societies, but these 3 entities together are the principal means by which Rome dominates the world.

The time has come for a final showdown with the forces of evil. The "Drain the Swamp" goal of the POTUS will uncover a trail of evil that leads to Rome. The path is convoluted, passing through secret societies, banking and corporate

structures, knighthoods, pedophile rings, and satanic cults. In the end, what will be revealed will echo what the Reformers pointed out centuries ago. The anti-Christ sits upon his throne in the Vatican, masquerading as the Vicar of God, while leading the world into the darkest of evils.

*A Great Cloud of Witnesses: "Wycliffe, Tyndale, Luther, Calvin, Cranmer, Bunyan, the translators of the King James Bible and the men who published the Westminster and Baptist confessions of Faith; Sir Isaac Newton, Wesley, Whitfield, Jonathan Edwards; and more recently Spurgeon, Bishop J.C. Ryle and Dr. Martin Lloyd-Jones; these men among countless others, **all saw the office of the Papacy as the antichrist.**"* Taken from All Roads Lead to Rome, by Michael de Semlyen.
